Last content Update: This column indicates when the document content was last updated. Document content is updated with input from an expert review group, facilitated by the AusHFG Project team.

Revision Date: Revision dates that are more recent than the last content update indicate documents that were reformatted when the new AusHFG website was launched in early 2016. These documents have a new numbering system for each section. There was no content update.

Note: Older revisions are still available in the archive.
