Description / Special Requirements	The Staff Station is the administrative base for a Unit in which it is located, and enquiry point for patients and visitors. It provides for the co-ordination of patient care, observation, writing up of clinical notes, entering data into computers and making and receiving telephone calls. The Staff Station may also accommodate a Unit Receptionist/ Clerk. The floor area may vary according to the Health Planning Unit in which it is located, activity level, number of full and part-time staff, the Operational Model and the building layout. A 20m2 Staff Station wll predominatantly be used in Critical Care Units such as ICU, CCU, NICU, PICU etc. Special Design Requirements: Staff Station should have a set down area for disabled access. Lockable counter height doors may be provided for additional security if required. If doors are required, access for disabled staff may require consideration.
